DIGITALISATION IN ENERGY

Fostering the digital transformation of the oil and gas sector, EGYPES 2019 provides a dedicated focus on digitalisation in energy with an all-encompassing exhibition zone that provides the essential building blocks for the industry to embark on its transformation journey.

The advent of a second digital age is upon us and the time to adapt, adopt and implement the wave of new technological advances that will unleash unparalleled productivity and significantly boost performance, is now. The zone encompasses a Digitalisation In Energy theatre with mini sessions taking place by the exhibitors, showcasing their digital innovations that will enhance productivity, increase the lifetime of projects and enable savings on capital expenditure.
